

Como crear un Playbook

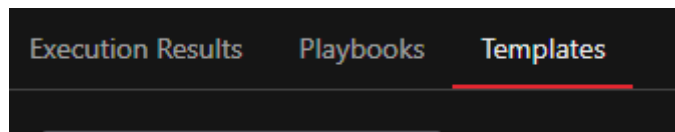

Vision One

Departamento de Soporte Técnico
EDSI Trend Argentina

Paso 1: Nos dirigimos a Workflow and Automation>Security Playbook

Paso 2: Una vez dentro del módulo de Security Playbooks, vamos a tener que dirigirnos a la parte superior y elegir la pestaña Templates.

Paso 3: En este apartado se nos van a mostrar todos los Templates realizados por Trend Micro y cada uno va a estar dirigido para una situación diferente.

Execution Results Playbooks **Templates**

Type: All

Paso 4: Una vez decidido que Template vamos a utilizar lo seleccionamos y vamos a poder crear un Playbook.

Paso 5: En base a la copia del Template que hemos elegido, vamos a poder configurar el nuestro, seleccionando las configuraciones que queramos para cada parte del Playbook.

Paso 6: Cuando terminemos de configurarlo debemos modificarle el Status a encendido y guardar los cambios.
